Your Reference 582-534 Mexico.

Dear Mr. Brandt:

This is to advise you that by Official Notice dated March 12, 1971, the Patent Office requested from us to interview the Examiner in charge of the above identified Mexican Patent application.

On March 30, 1971, we did interview the Examiner who requested that the specification and claims be amended as follows:

1.- To amend the title of the invention to:

"IMPROVED CIGARETTE", so as to precise the improvement which characterize the cigarette;

2.- To claim an improved cigarette in each one of the claims of the chapter of novelty stating the constituent parts thereof as well as the raw materials.

We have consulted our Patent Engineer who has suggested the amendments of the specification and chapter of claims according to the enclosed draft.
